

DATASHEET

Grounding Kit

The grounding kit provide simple, reliable and secure method in protecting your electronic equipment during outdoor operation. It serves as a single point ground connection for antenna, equipment rack, GPS receiver and other surge protection device to a perimeter ground system. As a single point ground system is highly recommended to provide protection from lightning strikes.

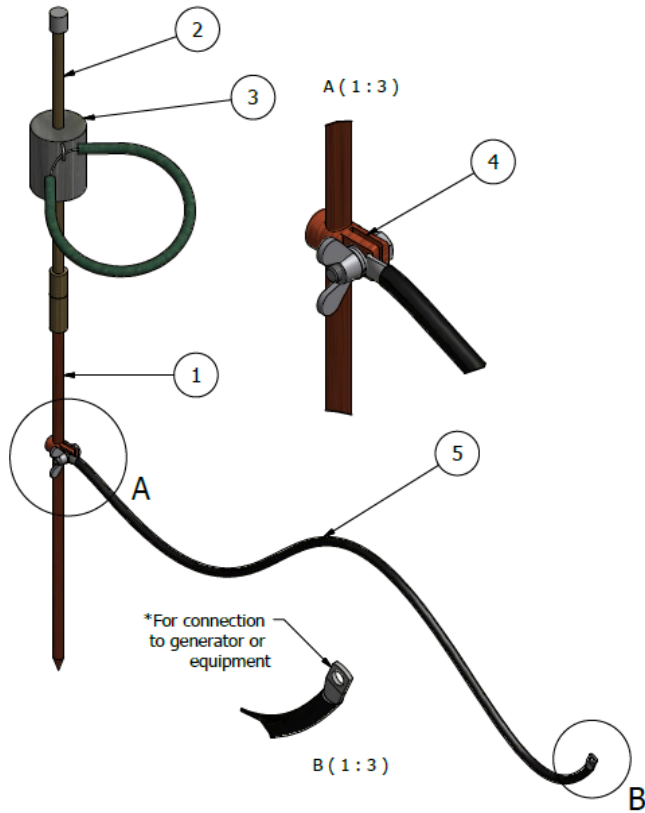

(Part No. HFGK-1450L)

The kit is divided into two section(attachment), the top hammering section and the bottom grounding section for storage purpose and better portability.

Key features

- ✓ Come with non-removable built in hammer
- ✓ copper grounding rod for best conductivity
- ✓ Adjustable copper connector lug
- ✓ Easy storage and portability

PARTS LIST FOR HFGK-1450L			
ITEM	QTY	DESCRIPTION	PART NO.
1	1	Grounding Bar (copper)	HFGK-1450L-001
2	1	Top section (Brass)	HFGK-1450L-002
3	1	Hammer	HFGK-1450L-003
4	1	Cable grounding clamp	HFGK-1450L-004
5	1	10m grounding cable	HFGK-1450L-005

Specifications

- * Model No: HFGK-1450L
- * Overall length: 1440mm
- * Top section: 615mm
- * Grounding section: 825mm
- * Overall weight: 13kg
- * Cable length: 10 meter (approx.)
- * Lug type: Single hole copper lug with other end hook
